

**Become an official Henderson Hottie Hero & be the first person to be inducted to the Henderson Hottie Hall of Fame.**

William Henderson himself developed this saying as he believes that all people are beautiful in their own way. They are people who should be able to say they are a hottie because of what they do for themselves and others. They are strong, empowered and have amazing stories of doing what everyday people do all the time. These people have battled cancer, raised children on their own, given to their community, set examples for others and mentored. They work hard and are survivors. They live life to the fullest and work to create legacies to leave behind.
